

CIHR/MSFHR Strategic Training Program in

BIOINFORMATICS

Procedure for full faculty membership in the Bioinformatics Training Program

- **Solicit a full faculty member of the Bioinformatics training program for membership nomination.**
- **Nomination must then be seconded by a second full faculty member of the Bioinformatics training program.**
- **Once seconded, the nominated scientist will be notified and requested to submit their CV along with a letter of intent. The letter of intent is a one-page description of their current research work in the bioinformatics area plus a proposed student project for a 4-month rotation.**
